

Environmental Stewardship Statement

As a global mobility leader, Enterprise Mobility* recognizes the importance of environmental stewardship and working to reduce our environmental impact through the integration of more sustainable practices across our operations.

We strive to:

- Comply with all applicable environmental laws and regulations where we operate
- Promote environmental practices that help reduce greenhouse gas emissions and other pollutants
- Support the use of energy-efficient products and services
- Encourage energy efficient building performance and renewable energy opportunities
- Monitor, review and report on our environmental performance targets and support continuous improvement opportunities, such as the reduction of greenhouse gas emissions, energy use, water consumption and material waste streams
- Engage with key supply chain partners that share our ambitions and expectations with regard to their respective environmental stewardship programs
- Communicate and engage with key internal and external stakeholders on environmental goals and other material environmental topics through ESG reporting
- Provide ongoing education for team members on the importance of environmental responsibility and related operational best practices

**Enterprise Mobility is a leading provider of mobility services. In this policy, "Enterprise Mobility" is used to reference corporate entities and/or the Enterprise Mobility brand, and information regarding many entities is conveyed. These references are not intended to convey or supplant existing corporate structure. Please visit the Enterprise Mobility [website](#) for additional information. This statement and the principles underlying it, have been adopted by Enterprise Holdings, Inc., Enterprise Fleet Management, Inc., and, individually, by management of each subsidiary company.*
